

Fluke TLK287 Electronics Master Test Lead Set

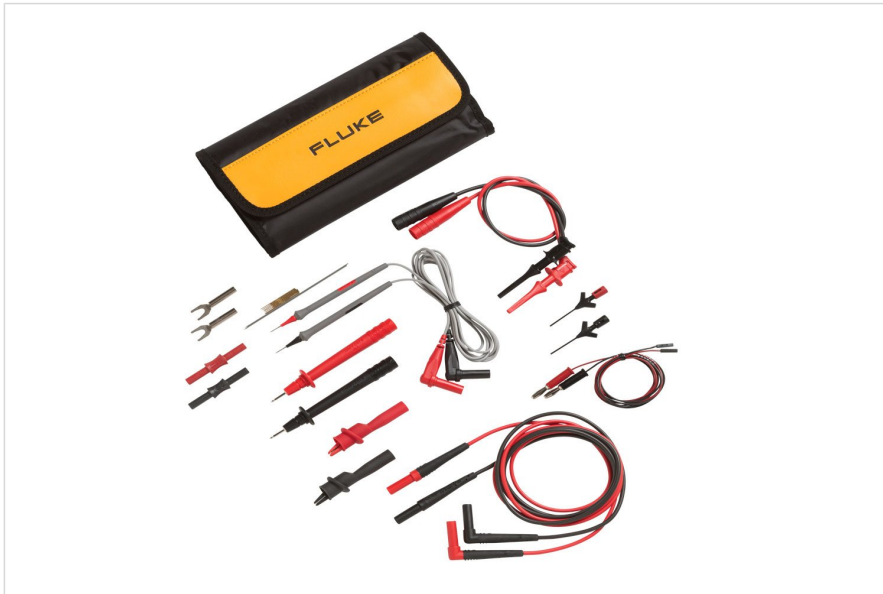

Key features

Precision electronic probes with multiple spring-loaded sharp tips to maximize contact with SMD test points. Micro-grabbers and leads to enable fine SMD test. Mini-alligator clips, grabbers, and probes for virtually every electronics need.

Product overview: Fluke TLK287 Electronics Master Test Lead Set

Fluke TLK287 Electronics Master Test Lead Set is ideal for electronic test and design. The set includes precision electronic probes with multiple spring-loaded sharp tips to maximize contact with SMD test points. Micro-grabbers and leads enable fine SMD testing. Mini-alligator clips, grabbers and probes for virtually every electronics need. And modular test leads and lead-probe combinations for versatility and couplers for long lead applications.

Ordering information

Fluke-TLK287

Includes:

- Precision electronic probes with multiple spring-loaded sharp tips to maximize contact with SMD test points
- Micro-grabbers and leads to enable fine SMD test
- Mini-alligator clips, grabbers, and probes for virtually every electronics need
